## SUPPLEMENTARY HISTORY

OF FIVE YEARS, ENDING JANUARY 1, 1888.

The following pages give in briefest form a record of the graduates of the last five years, ending December 1887, showing the teaching done by them during the course and after graduation, over which work the influence of the school may fairly be supposed to extend. Their residences at the above date are also given. Considering the nearly perfect record which we have of the first thirty-eight and last five years of the school, it is believed that no other institution of learning can give so much information regarding its graduates through so long a period. It is believed that a work of this kind adds a pleasant incentive to labor, cements and renders friendships lasting, leads to efficient assistance from each to each; and, by showing the extent and character of the work done by our graduates, justifies the State in wisely continuing and enlarging its efforts to instruct those who propose to enter upon educational service. The total number graduated during forty-three years, is 3,029. About 500 of these have died. It is believed that not less than 12,000 under-graduates have rendered faithful, and in many instances, eminent service in the schools of the State. It is thought that the graduates of the last five years will be interested in a brief notice of the changes during that time in the management and in the Faculty.

Since the catalogue and history covering 38 years was issued there have been changes in the Executive Committee and in the Faculty. Hon. Wm. B. Ruggles retired from the Chairmanship of the Committee by reason of expiration of term, April, 1886, and was succeeded in office by Hon. Andrew S. Draper, whose former place in the Committee is filled by S. N. D. North, A. M. Hon. St. Clair McKelway resigned by reason of his removal to Brooklyn, being succeeded by Samuel B. Ward, M. D., Ph. D. Professor Sumner H. Babcock died June, '87, and was succeeded by Prof. Edward A. Burt, a graduate of '77. Miss Ellen Bishop, who graduated in '75, entered the Faculty in 1878, and served with great acceptance until her resignation, May 27, 1887. On the 14th of June following she was married to Hon. Edgar A. Day, and resides in Castile, N. Y. Miss Josephine E. Seaman taught in our Faculty from 1871 until her resignation in Aug. 1887, to accept a similar position in the State Normal school in Los Angeles, Cal., to which place her brother had preceded her. Professor John B. Marsh, after eighteen years of faithful and efficient service, resigned, Jan., 1886, to become Professor of Vocal Music in the Elmira Female College, and Musical Director in Rev. Thos. K. Beecher's Church in the city of Elmira, N. Y. He was succeeded by Professor Samuel B. Belding, who is now in charge. The Faculty has been re-enforced by the appointment of Mrs. Margaret Sullivan ('61) Mooney; Miss Anna E. Pierce, '84, and Miss Edith Booley, '86. On entering the new building, Sep., 1885, Miss

Effie M. Fraats, '83, who had received a diploma from the original Froébel Kindergarten School in Hamburgh, Germany, became Superintendent of our new Kindergarten department, and Miss Ida M. Isdell, '84, was appointed assistant.

The school has received a valuable Entomological Collection from Benjamin W. Wooster, Esq., of Albany, N. Y. In pursuance of the provisions of a law making appropriation for the American Museum, New York City, the school has received a geological collection, and a valuable collection of stereoptic views.
